Experience

UX/UI Designer — ManeFrame

August 2024 – October 2025 | Toronto, Ontario (Remote)

- Helped transform the app's user experience to better align with leaderships' vision of a learning platform for beauty professionals.
- Created new features, wireframes, and user flows within a fast-paced development timeline, ensuring all interactions and interfaces followed best practices for mobile accessibility.
- Streamlined hand-off by collaborating with developers to refine documentation and supported brand and marketing by creating content assets for social media

UX/UI Consultant — LiUNA Local 1059

January 2025 – April 2025 | London, Ontario (Remote)

- Delivered a ready-to-implement solution within a four-month timeline that addressed an ongoing miscommunication about dues payments and reduced member complaints.
- Collaborated closely with the in-house developer to quickly get an understanding of the organization's needs and limitations.
- Provided in-depth specifications for styling and layout for hand-off to their external development team.

Product Development Intern — Canadian Tire Corporation

October 2021 – August 2022 | Toronto, Ontario

- Effectively managed the development of multiple products for Canadian Tire's owned kitchen brands.
- Ensured products exceeded customer expectations through in-depth market research, benchmarking, and testing.
- Facilitated clear communication with cross-functional teams and manufacturers by creating product renderings, concept presentations, and technical documentation.
- Designed on-product graphics and interfaces in accordance with visual brand language and technical requirements.
- Supported a visual brand language redesign with trend analysis and mood boards.

Education

Bachelor of Industrial Design

Carleton University

2018–2023 | Ottawa, Ontario

With High Distinction, GPA 11.8/12

Skills

Design

UX/UI design, graphic design, wireframes, user flows, prototyping, mockups, information architecture, design systems

User Research

Research planning, user interviews, surveys, usability testing, workshop facilitation

Tools

Figma, Adobe Creative Suite, Affinity, Microsoft Office, SolidWorks, DaVinci Resolve

Front-End Development

WCAG standards, HTML, CSS, JavaScript, React, Framer

Communication

Technical documentation, report writing, presentations, public speaking

Projects

Portfolio Website — Personal Project

February 2026 – Present

- Designed and developed my portfolio website from scratch using Figma and front-end development languages.
- Tested responsive design across devices and crafted visual content to make complex design projects easier to understand.
- Followed WCAG accessibility standards surrounding semantic HTML elements, screen reader compatibility, and colour contrast.

Fold-up Therapy Space — Capstone Project

September 2022 – April 2023

- Designed a tool to demonstrate a new way for people to access mental healthcare, using insights gained from in-depth research on Ontario's mental healthcare system.
- Uncovered areas for improvement through synthesizing insights found through literature review and user interviews with clients and mental health professionals.
- Created and tested prototypes of design concepts to evaluate feasibility and elicit participant feedback throughout the iteration process.
- Crafted compelling communication materials, including a poster, video, and report for public presentation at Carleton's 50th Grad Show.

Early Transit App — UX/UI Design Course

September 2021 – December 2021

- Designed an app to reduce stress for daily commuters using Ottawa Transit.
- Conducted user research into commuter's experiences, planning, organizing, and conducting interviews with a representative selection of participants.
- Developed and iterated the app's key user flows by conducting usability testing with prototypes in Figma.
- Unified the app's interface by creating a cohesive visual brand language.

Certifications

Design Research Mastery

Outwitly Inc.

February 2024

Certifies knowledge of UX and design research methodologies, project management, and research planning.

TCPS2: CORE 2022

Panel of Research Ethics

September 2022

Certifies knowledge of ethically conducting research with human participants.

Hobbies & Interests

In my free time, I enjoy cooking, drawing, sewing, and making crosswords. I also like to unwind by watching movies and playing video games.

I am currently working on a few coding projects and have an interest in DIY tech.
